

PFF

Your platinum service provider for piping and valve projects

Policy statement

For over more than 20 years PFF Group specialises in the supply of total solutions for piping and valve projects. We offer high quality pipes, flanges, fittings and valves for the oil, gas, chemical, petrochemical industry and the energy sector. In addition to this, the PFF Group, delivers a range of bearings for application in a wide range of products, including wind turbines.

PFF Group aspires to achieve and maintain a solid position in the higher market segment. We want to prove ourselves within this market as a strategic business partner that distinguishes itself through its quality. The primary objective of our service is to meet the market demand for technical solutions and high quality products in order to forge a sustainable relationship with our customers. Moreover, we consider the welfare and safety of our employees and preserving the environment as an important aspect of our company activities. This vision serves not only the interest of PFF Group but also an individual and civil interest.

To continuously fulfil the demands and expectations of the stakeholders strategic and operational risks are identified and measures are taken to delete these risks or at least mitigate these risks to a, for the PFF Group, acceptable level. PFF has set its methods into a management system based on the requirements of NEN-EN-ISO 9001:2015, NEN-EN-ISO 14001:2015, OHSAS 18001:2007 / ISO/DIS 45001:2017 and relevant law and regulation. A structured and organised working method is embedded in this management system to avoid, as much as possible, deviations from the standards and the demands and expectations of the client. PFF Group creates the right conditions for a well-functioning and the optimisation of the management system. Targets for quality, health & safety and the environment are set every year. Internal and external audits are underlying a continuous improvement process.

We strive to create an accident-free work environment by organising our business processes in such a way that maximum care can be given to the welfare and safety of our employees and third parties. This way we try to prevent or minimize incidents, accidents and environmental pollution. By means of education and training and the provision of the necessary resources PFF supports their employees to fulfil their working activities. The management of PFF expresses their confidence in every employee to support this policy and that all employees perform his or her job in a manner consistent with our policies, standards, guidelines and procedures.

The employees of the PFF Group share the responsibility for quality, health & safety and the environment under the supervision of the PFF management and those who have the responsibility for the various department and/or client accounts. The monitoring and progress are the responsibility of the Technical Director.

The management of PFF is responsible for implementing this policy statement. This policy statement is public and available for all employees and other stakeholders. Upon relevant changes in the business activities, law and regulation or standards this policy will be adjusted.

June 2019,

Andrea Galperti
CEO
